

THE NEXT MIAMI

A massive foundation pour was completed over the weekend at the Okan Tower construction site.

The foundation pour began on Friday night and ran continuously through Saturday night.

The original plan called for 1,200 concrete trucks to be brought in for the pour.

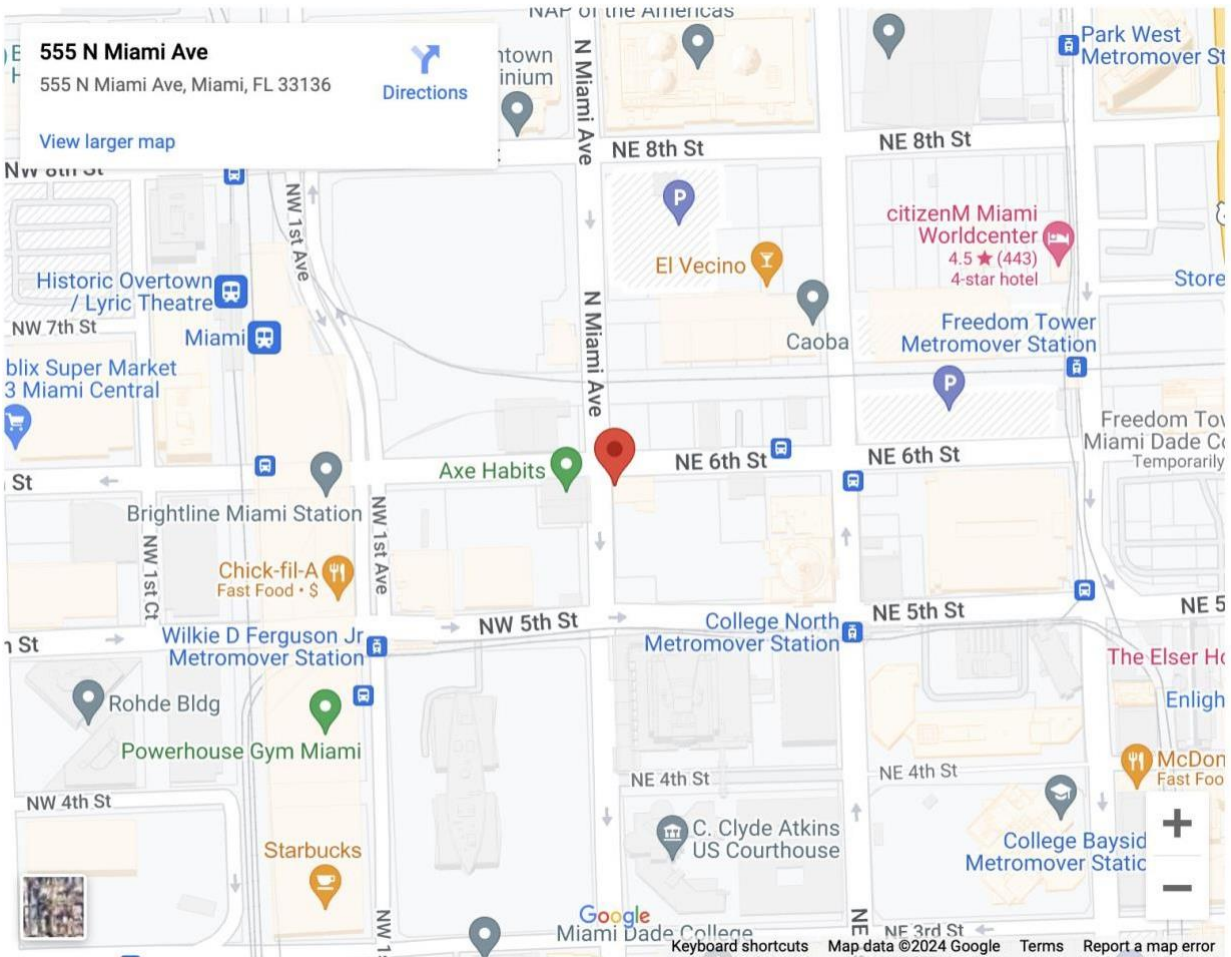

Okan Tower is planned to rise 70 stories, or 902 feet when it reaches completion, which is planned in 2027.

The Next Miami

The Next Miami was created in 2012 to report one of the most dynamic cities in the world, and we've since become Miami's most popular real estate website.
